

# FIRE & LIGHT

Two artists join together for the month of June at the  
George Farnham Gallery in Saxmundham.

Both inspired by the natural world but creating very different art.

DHW Silver's jewellery and gifts are classic with a contemporary twist, often inspired by the natural world. All handmade using ethically sourced recycled silver and gold, she is also registered at Birmingham Assay Office.

Shelley Nott Fine Art Photographer captures the essence of her subjects using window light. She's influenced by the Dutch Masters of the 17th and 18th centuries but created for today's walls.
